Project Development Phase Model Performance Test

Date	10 November 2022
Team ID	PNT2022TMID07860
Project Name	Visualizing and Predicting Heart Diseases with an Interactive Dash Board
Maximum Marks	10 Marks

Model Performance Testing:

5.	Effective User Story	The Heart Risk Calculator that has been created is serving all the needs and expectations of the user. As a User I can check my heart risk percentage in this effective dashboard. The various effective user stories are, • To create the Registration page of the Website • To create the Log in page of the Website • To work on the given dataset • To Understand the Dataset
		 Load the dataset to Cloud platform then Build the required Visualizations With the help of Heart disease dataset, create various graphs & Charts to highlight the insights in the dataset Build a Visualizations to showcase the Heart Disease Prediction
6.	Descriptive Reports	The website is working to the fullest of its efficiency. As a patient with my laboratory reports I can check my risk percentage towards my heart in this website. This website contains separate pages for Men as well as Women.
